KiwiDip - Teat condition a problem in the cooler weather?

KiwiKit are delighted to be able to offer their high quality, high emollient teat dip / spray KiwiDip.

KiwiDip is a ready to use, premium quality iodine dip or spray for teat disinfection proven to be effective against environmental and contagious bacteria.

Containing 5200ppm iodine and 11% total emollients, (>10% glycerine)

The high levels of emollient give KiwiDip excellent skin conditioning properties.

KiwiDip is supplied in 1000 litre IBCs delivered direct to farm.

NEW Active Teat Cream 500g

Iodine based teat cream with Manuka honey for the treatment and protection of cracked and chapped teats in dairy cows.

- Contains 0.2% iodine
- Contains mixed emollients including Manuka Honey
- For animal treatment only.
- Easy to use in a waterproof pouch.

£13.95
